Profile Summary

A confident and ambitious student with a strong passion for learning new skills and technologies. Known for being a quick learner, adaptable to new environments, and always open to feedback. Ready to work hard, collaborate with experienced professionals. Looking forward to opportunities that push boundaries and foster growth.

Education

Bachelor in Vocational(Software Development) (CGPA : 9.10) June 2024

Gujarat Technological University

Master of Computer Applications Aug2024-May2026

DY Patil University(1st Sem : 7.93 SGPA, 2nd Sem : 8.46 SGPA)

Technical Proficiency

- **Languages:** Html, CSS, JavaScript, C, Java, Python
- **Libraries :** ReactJs (Basic), Matplotlib
- **Databases :** SQL, MySQL
- **Tools :** VS Code, IntelliJ Idea, NetBeans

Projects

- **Hotel Management System :** The **Hotel Management System** is a desktop-based application developed using **Java Swing** for the graphical user interface (GUI) and **JDBC** (Java Database Connectivity) And MySQL for database operations. This project aims to streamline hotel operations by providing an easy-to-use platform for managing room bookings, customer details, billing, and staff information.
- **Machine Learning Model :** The **Placement Prediction System** is a machine learning project developed to predict a student's placement status based on their **IQ** and **CGPA**. The system uses the **Logistic Regression** algorithm — a widely-used statistical method for binary classification tasks — to determine whether a student is likely to get placed or not.
